COURSE OVERVIEW: The JROTC curriculum includes course work on leadership, civics, geography and global awareness, health, and wellness, language arts, life skills, and U.S. history. The curriculum is based on the principles of performance-based, learner-centered education and promotes development of core abilities: capacity for life-long learning, communication, responsibility for actions and choices, good citizenship, respectful treatment of others, and critical thinking techniques.

More important than "what" is learned in JROTC is "how" it is learned. Every classroom is equipped with leading edge technologies to teach, assess, and report student progress. Teachers are trained to utilize a range of technologies and develop social/emotional skills, support academic content through gaming and simulations, and promote the role of social media. Thus, students engage in meaningful, purposeful activities that lead them to demonstrate success through a portfolio of accomplishments.

Every learning experience in the curriculum addresses Core Abilities, Program Outcomes, and Course Competencies; building on their developing skills and abilities, which are critical to success in high school and post-secondary career.

The JROTC program prepares Cadets for leadership roles, giving practical lessons that help them develop into active and engaged learners and leaders. The program promotes academic achievement and leadership development, providing Cadets with skills that they will use for the rest of their lives.

CORE ABILITIES: Core Abilities describe the broad, life-long skills that every Cadet needs for success in future life and career endeavors. The core abilities are a result of the goals and values that drive the JROTC program and are built upon the program's four years through integrating various lesson competencies and skills throughout the JROTC curriculum. The Core Abilities are:

- Apply critical thinking techniques
- Build your capacity for life-long learning
- Communicate using verbal, non-verbal, visual, and written techniques
- Do your share as a good citizen in your school, community, country, and the world
- Take responsibility for your actions and choices
- Treat self and others with respect

PROGRAM OUTCOMES: Program outcomes describe what JROTC Cadets will know and be able to do upon successful completion of the JROTC program. These outcomes also provide documentation for growth and development of the student and program for re-accreditation purposes, school visitors, parents, and the community. As Cadets complete each LET, their journey toward program outcomes will occur; each program outcome is linked to every LET lesson in the curriculum. Evidence of learning can be witnessed through a Cadet's Portfolio, which will showcase continued development of program outcomes. The JROTC Program Outcomes are:

- Act with integrity and personal accountability as you lead others to succeed in a diverse and global workforce
- Engage in civic and social concerns in the community, government, and society
- Graduate prepared to succeed in post-secondary options and career pathways
- Make decisions that promote positive social, emotional, and physical health
- Value the role of the military and other service organizations

COURSE COMPETENCIES: Competencies describe discipline-specific measurable and observable skills, knowledge, and attitudes. They are targeted in each lesson of the curriculum. Performance standards (criteria and conditions) provide the specifications for assessing mastery of a competency. Cadets show they have learned competencies by applying them in the completion of assessment tasks that require them to do one or more of the following:

- Make a decision
- Perform a skill
- Perform a service
- Solve a problem
- Create a product

INSTRUCTOR COMMENTS: What is expected of Cadets will be made as clear as possible and covered in their Class Contract which each Cadet will acknowledge. Instructors are available at any time to discuss issues and progress of students. Parents and students are encouraged to contact us by phone, email or Schoology. As often as possible, Cadets will work together as a member of a small group, usually under the command of a fellow cadet. This is critical to the leadership-development portion of our program. Cooperation with cadre and either temporary or assigned cadet leaders is essential to individual and group success. We are a leadership and citizenship-building program. **No graduating cadet is obligated to join the military after completing Junior ROTC.** We look forward to a great year of learning.

Welcome to the Hurricane Battalion!
